Hi, team - we're hoping to hold a retro early this afternoon (2/3pm ET) with a larger team.

Would you be able to share any of the background information before then? Timing, QA details, etc.

Appreciate your help!

I got a delivery failure for Brandon's email so please loop in anyone I may have missed that could weigh in.

Hi, team -

Following the social chatter today with the KAWS Jordan customer, we're looking for as much background as possible on the authentication process of the sneakers in question.

This will help inform our reactive media statement. Could you share an overview of the order information, any QA steps, and initial outreach here for visibility?

[REDACTED] Anything else would be really helpful.

Thanks!
Yasmin
